

HAFIÐ TEKUR HAFIÐ GEFUR

(THE SEA TAKES THE SEA GIVES)

# What do we mean

---

- The sea is always around us here in Höfn except where the mountains are.
- Höfn has a discreet history with the sea.
- It's the biggest income for the people that lives in Höfn.
- But there has been many shipwrecks close to Höfn and many locals have lost their lives at sea.
- We all have connections to the sea, like through are friends and family.

# Everywhere is the sea

- Höfn is very close to the sea
- If you look out the window in each house in höfn you will see the sea
- Iceland came from the sea
- Just like surtsey.

# Shipwrecks near Höfn

- Shipwrecks are not common near höfn but still they happen
- Mímir the ship sank right near höfn but there were five boys that got saved and two man died
- To show you how bad it can be we will show this video
- <https://www.youtube.com/watch?v=mPBaqh3dcVM>
- But each time these kind of shipwrecks happen there are always Björgunarsveitinn that is ready to help

# What is the sea

---

- The sea is our home
- We come from the sea and we need to respect it
- How do we do that?
- We need to think about what we are throwing in it.
- Like the plastic straws.
- If we want to do something, then we as the young generation must do anything to stop the pollution.

# What are people doing

- There are a lot of good human beings that are helping with the sea pollutions
- Just like the ocean cleanup
- And us here in höfn we have set our selfelves to cleaned up our black sand beach of trash
- And Greta Tunberg is helping to ;)

- True or False
  - Is it safe to drink water from the sea
  - We swim in the harbor once a week
  - We all have worked in Skinney Pinganes
  - We are all from Höfn
  - We believe that there are sea men in the sea here

# Höfn fish processing

---

- We have Skinney - Þinnganes that is our fish processing and Höfn main source of income.
- Skinney - Þinnganes was started in 1999 but before that there were three companys that merged into skinney - Þinnganes. They were skinney, Þinganes and Borgey.

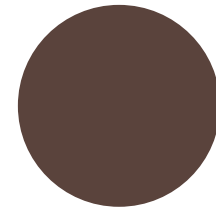

- All around Iceland are fishing ports
- The sea makes the most income for all around Iceland
- We ship fish all around the world like to America and Europe
- And like Skinney - Þinganes we have a lot to do like if we need to get nets, we go to Perú.
- And if we need to fix some ships, they go to Gdansk sometimes.
- And that's just in Höfn.

# Iceland seas

# What can we do in höfn that connects to the sea

---

- There are a lot of things to do with the sea
- We could also go on a sightseeing trip.
- Go with a fishing rod and try to catch fish.

# Fjörðu ferð/adventure time

- We are going to our black sand beach today
- We are going to have fun and play some games
- The only thing we want you to do is bring the positive thinking and have fun
- First though, we are going to eat and get our good outdoor clothing
- Hopefully you brought something good to wear because it can get cold

The End
